Summary

Frontend Developer specialized in React, Next.js, and TypeScript, with experience building checkout and digital payment platforms. I have worked on monorepo architectures, design systems with 250+ reusable components, multiple payment integrations, including cards, Google Pay, Apple Pay, cryptocurrency, QR payments, and cash payments, and complex state flows with Redux Toolkit and Firebase. I focus on building accessible, high-performance, and scalable experiences that connect product, design, and business goals.

Education

Universidad De Guadalajara
CUCEI Computer Engineering
2017 - 2021

Skills

JavaScript, TypeScript, React, Next.js,
HTML, CSS, Tailwind, SASS, Redux,
Redux Toolkit, Firebase, Figma,
Storybook, Turborepo

Languages

ES Spanish Native

Soft Skills

Teamwork, Communication, Problem
Solving

Work Experience

WISPOK

Frontend Developer | January 2024 - Present

Frontend developer focused on checkout and digital payment products, building scalable and maintainable interfaces with React, Next.js, and TypeScript.

- Built and improved checkout and digital payment flows, integrating multiple payment methods including Adyen, Kushki, Google Pay, Apple Pay, cryptocurrency, QR payments, AMEX, and cash payments.
- Designed and maintained a design system with 250+ reusable components within a monorepo architecture using Turborepo and Storybook.
- Implemented complex state management with Redux Toolkit and real-time flows with Firebase for payment tracking and transactional processes.
- Optimized API usage and frontend styles, reducing unnecessary requests and cutting CSS/SCSS size, improving performance and maintainability.

FIVERR

**Freelance UI Designer/
Developer**

| September 2021 - Present

Design of user interfaces for diverse projects, spanning mobile applications, landing pages, and more, across both mobile and desktop technologies.

- Developing designs that work effectively in mobile and desktop environments, ensuring a consistent experience for users across different devices.
- Teamwork with developers, designers and other professionals to ensure consistency of design and functionality across different platforms.
- Successful experience in delivering designs for different types of projects, demonstrating adaptability and versatility in creating user interfaces.
